CHARA SCHREYER & GARY HUTTON ON ART HOUSE

Preface: This book is an exploration of our 40-year collaboration that covers both living with and designing homes that honor art. While various elements of the homes in our book have been published, this was an opportunity to share the visions behind them in a comprehensive way. **Inspirational contributors:** Each other. **Trademark style:** Like a symphony, we play different instruments at different times. We actually finish each other's sentences—it can be kind of frightening. **Afterword:** There are only two kinds of people in the world: the ones that love sparkly things and the ones that won't admit it.
