

INSPIRATIONS

TO DREAM * TO DISCOVER * TO LOVE

Collaborative Effort

Shannon Campanaro of the New York-based surface design store Eskayel is known for bringing innovation and beauty to her interiors. "As a firm," notes Campanaro, "we have a strong commitment to the environment and we aim to spread that message." Inspired by nature and travel, Eskayel's colors gravitate toward that of the sunset and the ocean. Their new collection, "Dalili," is a collaboration with artists within the Eskayel studio. "Eskayel has been fortunate to attract such talented young designers to work in our creative studio," says Campanaro. "We wanted to find a way to introduce these three ladies and showcase their talent by collaborating with them on a collection for Eskayel."
